**Are YOU dealing with a smoking addiction that is consuming your life? You are not alone, so don't give up hope until...**

## **Quit Smoking Magic**

Quit Smoking Magic is the first and ONLY program of its type that literally FORCE YOU to easily kick the habit in just days, even if you have a shoestring budget and absolutely no will power.

As a former chain smoker for many years, myself, I have tried virtually everything on the market to quit smoking, with no REAL success. A few times, I actually quit for a few weeks, and even a few months, but in the end I always relapsed.

This is what led me to begin researching and thoroughly studying methods for quitting smoking. After many months of trial-and-error testing, along with much frustration and MONEY spent, I finally figured it out!

The name of the program was to be called “Quit Smoking Magic,” and I’ve used this program to help hundreds of people quit the habit, including family members, co-workers, friends, and associates.

P.S.S.S. You hold the key to your own future in your hands. You can choose a future that ends in a smoking related death or make the wise decision to start the Quit Smoking Magic program now. Which will it be?

## **Your Smoking Problem is Going to Kill YOU!**

There are more than 100 MILLION smoking related deaths each year! If you’re anything like most people, I’m sure that this number came as a shock to you. It does for most of us.

However, I have a few more frightening statistics about smoking:

1. Roughly 440,000 Americans die annually due to smoking related diseases — (this doesn't include those who die from fires and other smoking-related problems)
2. Tobacco use causes the nation nearly \$100 Billion annually in medical expenses.
3. The CDC estimates at least \$200 Billion in annual loss-of-productivity costs
4. 23% of Americans (Approximately 46.2 million people) smoke cigarettes
5. Smokers are 14 times more likely to die of lung disease than non-smokers
6. Smokers have double the chances of having a heart attack than non-smokers do
7. 126 million+ people are put at risk for heart disease from second hand smoke annually

Believe it or not, I could literally go on and on with these shocking and extremely frightening true statistics, but I'm sure you get the picture. If you are a chain, or even an occasional, smoker, your quality of life is going to suffer drastically.

## **So How Am I Qualified to HELP YOU?**

This is a good question with a VERY simple and honest answer. The bottom line is that I'm a very experienced individual on this subject who understands your problem 100%.

Just "Google" me! But . . . here are a few reasons why I am qualified to help YOU:

- I'm an ex-smoker (20-year habit)
- I'm someone who has thoroughly researched and tested this subject
- I'm a "Test subject" who's tried nearly everything you can think of
- I'm someone who's successfully helped hundreds of people to quit
- I'm someone who has never failed with this program
- I'm sympathetic because I've been in your shoes

Rather than listening to doctors who solely base their treatment programs on testing and research, why not learn from someone who has been in your shoes, done the research, and been cured — such as myself?

Since this is absolutely something that you need RIGHT NOW , I've priced "Quit Smoking Magic" to sell like hotcakes, and I'm so SURE that it will work for you — just

as it has for EVERYONE else — that I back up all my claims with a MONEY-back guarantee in writing.
