

## A Superb Medication To Fix ED & PE With Super P Force Oral Jelly

[Sensual dysfunction](#) is a common difficulty among men these days. It has an impact on various aspects of sensual activity. These are attraction, arousal, pleasure and orgasm. It can cause extreme distress and have a great impact on your life. It is a common problem that impacts men. This [sensual dysfunction](#) usually has a physical cause. There are a lot of psychological factors that can lead to erectile disorder. These can be situational anxiety, depression or even strain and these can however affect male sensual function. [Super P Force Oral Jelly](#) from [rsmmultilink](#) is a superb medication to fix the problem of [erectile disorder](#) and early ejaculation in men. It comprises [Sildenafil Citrate 100mg](#) and [Dapoxetine 60mg](#).

[Sildenafil Citrate 100mg](#) is an important ingredient that works to boost the flow of blood to the male organ. It helps men to gain a stiff male organ. This helps men to gain smoother erections during sensual communication with the lady. [Dapoxetine 60mg](#) helps to establish control over the ejaculation process. It even delays the process of ejaculation so that the couple can enjoy sensual contact.

### [Erectile Disorder \(ED\)](#)

This illness is also known as Impotence in men. It does not allow men to be able to gain or even maintain an erection during sensual communication with the lady. Suffering from an erection problem is not uncommon. A lot of men might experience it during stressful times. Suffering from erection problems frequently is a sign that a man might be suffering from health problems that need treatment. There is a possibility that there are emotional or relationship issues that need professional guidance to solve.

### [Erectile Disorder](#) or ED Causes

There are numerous causes of [erectile disorder](#). These can be physical reasons relating to an ongoing complication or disease. There can be emotional issues that can lead to erection failure as well.

### Emotional Reasons For [Erectile Disorder](#) or ED

**Stress:** There are a lot of reasons that might cause men to take stress. These can be financial issues, ongoing events, job-related issues and many other factors. Stress is the major cause behind the occurrence of [erectile disorder](#).

**Guilt:** Men even feel guilty and even conscious for not performing well in the bedroom to satisfy their companion. This guilt can also lead to erectile disorder.

**Anxiety:** A lot of men experience erectile disorder when they feel anxious or scared. This can even lead to performance anxiety and can lead to frequent [erectile disorder](#).

**Depression:** It has a great impact on the mind, body and a person's actions. If a man is suffering from depression it might cause him to suffer from [erectile disorder](#) even if he is sensually comfortable.

Apart from these factors low self-esteem and indifference towards sensual contact can even lead to [erectile disorder](#) as well.

### **Physical Reasons For [Erectile Disorder](#)**

**Heart Diseases:** Existing heart conditions can even cause [erectile disorder](#). Even a lot of medications can lead to [erectile disorder](#) as well. Blood vessels that are clogged up can interfere with the flow of blood to the sensual organ. So lack of flow of blood can lead to erectile disorder.

**High Cholesterol:** High Cholesterol can even lead to [erectile disorder](#) as well.

**Diabetes:** A lot of men suffering from diabetes have trouble while trying to attain or even maintain an erection.

**Obesity:** Being obese can also bring a lot of health complications with it. It can even lead to high blood pressure and high or low insulin levels. This can lead to erection failure in men.

**Multiple Sclerosis:** It is a complaint that does not allow the nervous system and the spinal cord to function well. It can lead to problems in communication between the brain and the body.

### **Symptoms Of [Erectile Disorder](#)**

1. trouble getting an erection.
2. trouble maintaining an erection.

### **Early ejaculation (or PE)**

This illness causes men to ejaculate too soon during sensual communication with the lady
