

# **BEP20 Token Development Company** **| Create BEP20 Tokens On Binance** **Smart Chain(BSC) - Security Tokenizer**

BEP20 Token Development ideology has been hot talk in the crypto industry since its arrival. BEP20 token development is nothing but a process of developing cryptocurrency token using the BEP20 token standard on the Binance smart chain. Create a BEP20 Token on Binance Smart Chain(BSC) to boost your business in the DeFi/NFT space.

## **BEP20 Token Development Company**

Leading [Token Development Company](#), Security Tokenizer provides Complete BEP20 Token Development Services, To Design,develop and launch bug free BEP20 token on BSC (Binance Smart Chain), For any kind of NFT, DEX, DeFi and Dapps projects/business.Our Experts understands your needs, and can develop BEP20 tokens on BSC based on your business requirements. We also create BEP721,BEP1155 etc., token on Binance Smart Chain Blockchain Network.

**[Create BEP20 Token Now!](#)**

## **Our BEP20 Token Development Services**

- Token Development
- [Mintable BEP20 Token Development](#)
- Migrate Token
- [ICO Development](#)
- BEP20 Token Listing
- BEP20 Token Wallet Development
- [SmartContract Development](#)
- [White Paper Creation](#)
- BEP721,BEP1155 Token Development

## **What is BEP20 Token?**

BEP20 token is a cryptocurrency token built using the BEP20 token standard which comes under BSC. BEP20 standard is one of the fastest and most powerful token standards that exist in the cryptocurrency industry. By using token standard one can create a token as well as Dapps and smart contracts. We can say BEP20 is an update BEP2, token under Binance Chain.

## How to create BEP20 Token on Binance Smart Chain(BSC)?

Create token on BSC blockchain that supports smart contracts and EVM compatibility. So you need to create bep20 token on below basis like,

- Token Name
- Token Symbol
- Token Decimal Places
- Total Supply
- Balance Of
- Supply Type
- Token Type
- Network

## BEP20 Token Generator Platform Development

Security Tokenizer provides Ready made Token Generator Platforms clone like

- [CoinTool App Clone](#)
- Token Mint Clone
- [BEP20 Token Generator](#)
- ERC20 Token Generator
- Togen.io Clone
- Dxsale Clone
- And More

You can able to create BEP20 Tokens less than 10 Min using above Token Generator Clones without Coding.

## Features Of BEP20 Token Development

- Complete Ownership Rights
- Role-Based Access
- Fast Transaction
- Token Cap
- Token Minting
- Token Burning
- Compatible Tokens
- Cross-Chain Compatibility
- Easy Listing on Exchanges Platform
- And More

## Benefits Of Our BEP20 Token Development

- Decentralized
- Enable Smart Contract
- Matchless Efficacy
- Easy-to-create
- Safe Structure
- Issuance
- Collateralized
- Interoperability
- Staking
- Scalability

## Cross-Chain BEP20 Token Development

Interoperability also available between ethereum Blockchain and others. You can also create BEP20 token on ethereum blockchain is possible via Cross chain Compatibility. The Interoperability allows for the swapping of [BEP-2 & BEP-8 Tokens with BEP20](#) with features

## Our Trending BEP20 Tokens Lists

- BUSD
- CAKE
- BUX
- BAKE
- ALPHA

- C.R.E.A.M
- SXP
- WBNB
- BURGER
- SAFEMOON

## **We Experts To create Token on Below Blockchain Platformrs,**

- Ethereum
- Fantom
- Tron
- EOS
- Solana
- Metaverse
- Polygon
- Avalanche
- Bitgert
- Bella Protocol
- And More

## **Our Exclusive Token Development Services like,**

- [NFT Token Development](#)
- DeFi Token Development
- [ERC20 Token Development](#)
- [Metaverse Token Development](#)
- ERC721 Token Development
- ERC1155 Token Development
- [Solana Token Development](#)
- Tron Token Development
- TRC10 Token Development
- TRC20 Token Development
- [Polygon Token Development](#)
- And More

## **Why Choose Security Tokenizer for BEP20 Token Development?**

As a Top Notch [BEP20 Token Development Company](#), Security Tokenizer developed and launched a 100+ number of Applications and Projects for all Business Sectors. we have the experience and capability required to take your BEP20 token development project to mammoth levels. We also Create Tokens on top of the Blockchain Platforms like Ethereum, Tron, EOS, Solana, Metaverse, Polygon, Bitgert, Bella Protocol, etc., With Enabled Smartcontract and more features as per your business needs.

We intently follow the cryptocurrency landscape that is dramatically developing, and the most recent patterns uncover that the worldwide blockchain market size is supposed to flood USD 38.2 billion by 2025, at a viable Compound Annual Growth Rate (CAGR) of 65.4% during 2020-2025-In such a rewarding climate, So Don't Wait

### **[Create BEP20 Token & Start your Crypto Business Now!](#)**

We provides,

- Technical Prowess
- Skillfull Crypto Token Developers
- Affordable Cost
- Expert Team
- Rapid Development
- 24\*7 Complete Support
- And More
